01

Who we are.

Hi, we are modulyss.
We make high-quality
carpet tiles and
always aim to inspire.
Across the world, but
with a sustainable
approach.

Hi there!

- We're a Belgian **carpet tile** manufacturer, located in Zele, with over 25 years experience.
- We offer **a large scale** of trend defining carpet tiles that meet all demands in terms of quality, sustainability & performance.
- We back up that promise with a **15 year warranty**.
- We're focussed on the International **commercial market**.
- We're one of the leading companies within the carpet tile business.
- We're a proud subsidiary of the Balta Group.
- We're **ISO 9001** and **ISO 14000 certified**.
- We operate in compliance with the **ISO 26000** standard (CSR).

Sustainability

- BACKINGS
- PRODUCTS
- PARTNERSHIPS

Through innovations and partnerships, modulyss integrates its sustainable vision in terms of wellbeing and environment throughout its whole value chain.

- Katrien De Cooman, Sustainability Manager @ modulyss

ECO-PROJECTS

Backings

back2back

Our standard backing that contains up to **10% carpet tile waste**, that is generated during the cutting process thanks to our unique backing process. The filler is 100% post-industrial recycled chalk.

comfortBack

A shock-absorbing backing, made with **90% recycled polyester felt**, that helps to improve wellbeing and underfoot comfort within a workspace.

ecoBack

A backing with enhanced sustainability.

BACKINGS

ecoBack

- Our next step in sustainable product development.
- A bitumen-free and PVC-free backing.
- Less material needed for same high performance (in comparison to our other backings).
- Enhanced sustainability thanks to its recycling potential and focus on circularity.

ECO-PROJECTS Products

13 eco-collections

Alternative100, Pure Air100, Moss, Leaf, Willow, Grind, Millennium Nxtgen, Txture, Mxture, Blaze, Dusk, Dawn & Gleam.

ECONYL®

Our eco-collections are made with ECONYL® - a 100% regenerated yarn, derived from recovered fishing nets and other waste materials.

ECO-PROJECTS

Partnerships

Healthy Seas

modulyss is an associate partner member of Healthy Seas®. Joining Healthy Seas®, modulyss helps to prevent marine littering in our seas.

CARE

A partnership of modulyss and the Vanheede Environment Group in which carpet tiles are converted into secondary fuel to reduce CO₂ emissions.

CO₂RE

Rising to the challenge of global warming, a selection carpet tiles are now available with low CO₂ emissions in our CO₂RE carbon offset initiative.

CREATIVE

DAWN 57B, 57M, 93B, 93M

GLEAM 511, 535, 569, 581 & SPARK 511, 550

HOORAY! WE WON!

GERMAN
DESIGN
AWARD
WINNER
2020

CREATIVE

Delight

Inspired by the mixed metallic trend, this collection is comprised of 5 diverse carpet tile designs unified through a gloss accent and colour range.

BLAZE 553, 961

SPARK 907, GLEAM 990 & DAWN 99B, 99M

CREATIVE &-collection

Our long-running coordinated approach to the way we design carpet tiles. All products can be mixed&matched and offer interesting variations in design, texture or colour.

CREATIVE

Fluid&

Perfectly imperfect in its approach to pattern, Fluid& is a mind-blowing carpet tile range that brings a bold splash of colour.

FUNCTIONAL

COMFORT

FUNCTIONAL

comfortBack

comfortBack is a shock-absorbing backing that **improves wellbeing, underfoot comfort and acoustics** within a workspace and ensures cushioning and sound-absorption for a floor that's comfortable for longer.

JUST AS COMFY AS THE SOLE OF
YOUR FAVOURITE PAIR OF SNEAKERS

FUNCTIONAL

comfortBack

The construction

comfortBack uses a specially developed **90% recycled content polyester felt** to provide its comfort. It's lightweight yet dense enough to absorb footfall time and time again.

- 1 Pile material + primary backing + precoat
- 2 Glass scrim for superior dimensional stability
- 3 back2back (10% recycled content) for strenght
- 3 **90% recycled felt comfortBack for better comfort**

INSTALLATION

FUNCTIONAL

Flex Fitters

The modulyss Flex Fitters are **self-adhesive tabs** for a glue-free installation of back2back carpet tiles and planks.

With a negligible amount of VOCs, leading to a better indoor air quality, and a higher recyclability of both the tabs and the carpet tiles, this flexible method offers a **sustainable solution**.

FUNCTIONAL

Flex Fitters

What does this mean for your project?

- A negligible amount of VOCs.
- Made of recyclable PET.
- Glue-free, so no drying time required.
- Easy to remove, replace and recycle the carpet tiles.
- Subfloor remains intact and without glue residues.
- Offers some additional creative possibilities such as separate rug zones.

UPCOMING

fast ▶▶ forward
to 2020

First collection 2.0

with revamped designs, an increased wear-resistance and our own in-house yarn, we took (y)our evergreen products to a whole other level.
